Coronavirus Statement

We understand that you may be concerned with the potential effects of the Coronavirus on PeterLynn's Supply Chain.

Peterlynn manufactures all our goods at our site in Northants, UK. Much of our raw material and ink is sourced in the UK and a small proportion from Europe. We have contacted our UK and European suppliers and have been assured that no delay or reduction in supply is predicted, and that manufacturing continues as normal at all our supplier's sites throughout the UK and Europe.

As a preventative measure Peterlynn has made the pre-emptive decision to increase our stock levels for any materials currently sourced from European suppliers with immediate effect.

In the event of an issue affecting staff within our workplace we will follow local Government and NHS Trust advice and guidelines to ensure the health and wellbeing of our employees. Our Sales staff are set up for remote working if needed, and our production team can maintain the recommended 2 metres distance separating each of operator in order to reduce the risk of infection. In addition, we have a plan in place that can be implemented if necessary, for split shifts in order to maintain our production capacity with reduced staff numbers if required.

Peterlynn is also well funded and quite able to withstand any short-term economic disruption so you can be assured of our stability throughout this difficult time.

We will continue to monitor the situation and will update you if the circumstances change or new information becomes available.

James Lindsay
Managing Director
PeterLynn Limited
